## HALLEY'S COMET A DAILY ATTRACTION

Is Plainly Visible to Tombstoneites  
and Headed Directly for  
Arizona

THE BEST TIME TO SEE THE VISITOR

The long expected Halley's comet is now visible to the naked eye in the eastern sky, according to the statement of Dr. A. E. Douglas, who has been conducting astronomical observations at the University of Arizona, about an hour and a half before sunrise.

It was seen through the university telescope a week ago, on the morning of Friday, the 8th; but it was not then visible to the naked eye. Since that time it has been coming almost straight in the direction of the earth and at the same time has been getting nearer the sun, so that it is now probably fifteen times as bright as then. It now looks as bright as Comet A-1910 did on the first of

February after it had been visible for ten days.

To the naked eye Halley's comet now shows a short, dense tail, a few degrees long, extending upward, inclined about thirty degrees to the south. The time to look for it is from 3:30 to 4:15 a. m.—an hour that just suits the natural born early risers of this city. Its position is a little north due east and low down near the horizon.

It will hold this place for nearly four weeks, getting brighter and brighter day by day and somewhat higher, so that on the 10th of May, when it will be nearly at its best, it may even surpass our expectations.

### "Copper Era" Has A New Editor

The Clifton Copper Era, an excellent publication under the editorial management of Matt Dannbauer, has a new editor—Earl M. Miller, direct from Michigan. Editor Miller enters the journalistic field as briskly as would an untamed steed, and under his chosen motto, "Things as They Ought to Be," pays his respects to several Arizona exchanges, the highest compliment being handed the THE PROSPECTOR on a lavender-scented platta, for which graciousness we extend our best wishes for the future of the Copper Era, and hope that Editor Miller will not so far forget himself as to again question the veracity of Col. Allen T. Bird of the Nogales Oasis. We feel sorry for the newly-arrived editor after Col. Bird shall have finished his picture of wel-

come to the ranks of Arizona journal-

ists. Explanatory of his political faith, and giving as his reason why Arizona is more suitable to him than Michigan, Editor Miller says, in his salutatory:

"By way of brief introduction at this time, will remark that I come direct from Michigan, that fair peninsula, whose only blot is the republican majority rolled up at each succeeding election. Hence it may be readily inferred that I greet with much pleasure, the change from a commonwealth owned and controlled by the money owners, to one where the people believe in that famous old slogan: 'Equal rights for all, special privileges to none.'"

So it is seen that henceforward—or as long as the republican stockholders of that paper acquiesce—the Copper Era will espouse the cause of the masses and cease truckling to the classes. Welcome, thrice welcome, Editor Miller!

### Arizona Girl to Write a Play

A Lake Forest, Ill., dispatch says: Shakespeare was relegated to the discard and playwrights of the present day were passed by the students of Lake Forest university in their search for a play to be produced during commencement week.

At a meeting it was decided that a precedent be established by having students write the commencement play, and before the gathering adjourned four co-eds from the senior class were selected for the work.

They are Misses Josephine Alice Mack, Tucson, Ariz.; Ruby Halstrom, Joliet, Ill.; Jane Hunter, Sioux City, Ia., and Clara Crawford, Rock Island, Ill.

### CHAUFFEUR GETS ACROSS THE LINE

Report That Cudahy's  
Chauffeur Crossed  
Arizona Line

By all accounts John Moss, the young chauffeur who is said to have aided and abetted Millionaire Cudahy in his assault upon Banker Lillis at Kansas City recently is now on his way to a haven of safety across the Mexican border. A man answering to the description of the missing auto driver and who subsequently admitted that he was formerly in Cudahy's employ joined No. 3 advertising car of the Se la-Foto circus at Albuquerque on Saturday of last week. When the car left Naco Junction on the Mexican line he was found to be missing. To his bank mate, C. W. Anderson, he confessed that his right name was John Moss and that he had worked for Cudahy in Kansas City.

FIRST IN ARIZONA

Ceremony Uniting Couple  
Duly Solemnized  
at Tucson

Justice of the Peace J. E. Duffon had the distinction Wednesday night of pronouncing the words which made Jew Lee and Francisca Valdez man and wife. Judge Duffon was not the only person who acquired distinction on that memorable occasion. Two gentlemen known to local fame by the names of Josiah Ide and a Mr. Mc-

Dowell shared in the honors of the evening, acting as "best man" for the groom and maids for the bride—for they were the only two other witnesses to the performance. Despite the orthography, Jew is a Chinaman. His bride is a Papago Indian, the first union of the kind yet known here.—Tucson Star.

Deputy U. S. Marshal Will White brought over a prisoner today who is held to await the action of the U. S. grand jury on a charge of smuggling opium across the line at Naco.

A Delegation of Tombstone Pythians left today for Douglas to attend the K. of P. District Reunion being held in that city today and tomorrow. Among the Tombstone delegates were J. W. Clark, George Kelly, John Rock, B. Hattich, H. E. Berner, A. Wentworth, W. G. Gilmore, G. W. Swain and W. F. Kuchenbecher.

Word from Bisbee today states that Walter Melgreen, who was operated appendicitis yesterday, is doing nicely, and hopes are entertained for his early recovery.

Mayor George Neale of Bisbee is in the city on a brief business visit.

The Tombstone Electric Light & Power Co.'s management announce that they will hereafter, beginning last night, furnish an all night light service and it is not unlikely that full day service will follow shortly.

With the reopening of the Old Guard another old time Tombstone producer will again begin adding its quota of mineral wealth to the growing territorial output.

## ARIZONA BRONCHOS FOR EASTERN SHOW

Arizona Cowboys to Ride the Famous  
Bronchos in the New York  
Hippodrome

WILD HORSES ARE SHIPPED BY EXPRESS

A Phoenix dispatch says:

The famous "Black Jack" and "Wildcat," both outlaw broncos, will soon take a trip to the metropolis of the country. They will be included in a shipment of twenty-two head of wild horses that Bert Bryan will ship to New York for use when he opens the hippodrome and shows the natives how they ride in Arizona. The horses will be shipped by express and the individual rates will probably be

more in some cases than the animals are worth. Leon Mayer, Bryan's manager, has just left for New York, where he will complete arrangements with Lee Shubert, manager of the Hippodrome, for Bryan's appearance as a bronco buster there. The enormous stage of the hippodrome will be covered with a four-inch rubber cushion so that when the nags lurch there should be quite a little spring to it. Bryan will leave May 10 and open May 30.
